

MARINE/NAVAL

The Basics

*The Paddle Steamer Waverley:
Chemical Clean, degrease and descale
of two 20 tonne steam boilers*

Aqua Chem Environmental Ltd are one of the few companies in the UK that regularly carry out chemical cleaning work on board ships such as the Waverley (as shown above) and many other naval vessels. Our staff and management have years of experience in the specifics of these technically challenging jobs.

The Solution

Aqua Chem Environmental Ltd's project management team will look at your project putting together a bespoke chemical cleaning method to fully address system issues, whilst working within the constraints that are often found in the Marine/Naval industry.

*Chemical clean to ship's
cooling system*
