

WATER HYGIENE/ WATER TESTING

The Basics

Aqua Chem Environmental Ltd regularly carry out water hygiene procedures including the mandatory cleaning and disinfection of cooling towers, tanks and down services in accordance with our Legionella Policy and/or HSE L8 document.

We provide thorough water hygiene service solutions to a broad range of industries throughout the UK.

The Solutions

Aqua Chem can cover annual contracts to ensure cooling towers and domestic water services are covered within the current L8 Water Regulations. We can also carry out a variety of remedial works i.e. servicing TMVs, replacement water tanks, heaters etc.

WATER HYGIENE/ WATER TESTING

Experience Over Years

Our Chemical Cleaning team of professional problem solvers are skilled at managing hazardous and non-hazardous wet and dry materials. We specialise in chemical cleaning, steam cleaning, pre-commission cleaning to BSRIA specification and L8 approved code of practice water hygiene standards. Industries rely on effective cleaning services for process equipment and systems ensuring efficient production management, loss of down-time and minimising environmental impact and energy costs.
